

Monday 9th November- I can think about features of a good animation.

Our new unit in Computing is 'We are Programmers'. This means that we are going to be making our own animation.

Think about what makes a good animation; is it the bright colours, use of speech, telling a story?

Below, create a mind map of what makes a good animation.

Once you have done this, there is a 2do on Purple Mash for you to complete.
