Year 6 Home Learning 21/01/2020 Daily Timetable

Morning Tasks	Practise this week's spellings using look, cover, write, check method. Can you practise your cursive handwriting by using each word in a sentence? Daily mental maths: https://www.topmarks.co.uk/maths-games/daily10 (Level Six, Multiplication -> Mixed tables up to 12x)
English	Today you are going to write a setting description of the Titanic docked at Southampton and the bustling quayside with crowds of spectators. Using the brainstorm you created yesterday, the movie clip you watched and the illustration on page 120, write your own description of the scene in third person as if you were an author. Look at the slides for some good examples! You could type up your work on a computer and add some imagery if you'd like.
Maths	Today's learning objective is to convert fractions to percentages. Watch this video before you begin today's work: https://vimeo.com/492449530 Next, go through the PowerPoint slides with an adult and complete the warm-up tasks as you go. Once you've had a go at the tasks on the slides with an adult, see if you can complete the worksheet independently. There are some additional questions on the slides to answer as well.
PE	Take a break from being sat at your desk and complete some exercises such as the Joe Wicks PE lessons.
Science	This week you will be exploring ways of distinguishing between organisms that have similar characteristics. You need to complete either worksheet 2A or 2B. Your task is to think about the different features of the mammals or the birds and how further you could split them into groups. Sort out the cards and stick them onto a large

	piece of paper. Note down the reasons behind your decisions.

As always, if you should require any assistance in completing any of the set work, or have any queries, please contact us at year6home@heddon-school.co.uk

Please send all completed work back to the above email address at the end of each day. This can be attached as an uploaded photo 😊
