

Physical Development

Children will have the opportunity to continue to develop their gross motor skills, such as using large muscle movements to paint and make marks, developing their movement, balance, riding, and coordination skills.

Children will also have the opportunity to develop their fine motor skills through a variety of activities, such as using tweezers, manipulating play dough and threading etc.

Children will continue to take part in 'dough disco' and 'squiggle while you wiggle' sessions to develop both their gross and fine motor skills and will be encouraged to develop a comfortable grip with good control when holding pens and pencils.

Mathematical Development

Children will explore 2D and 3D shapes, whilst revisiting repeating patterns. They will also consolidate their knowledge on more than and fewer, as well as continually developing their subitising skills.

Literacy

Children will continue to practise recognising and writing their names daily. They will continue to develop their phonological awareness, so that they can spot and suggest rhymes, count or clap syllables in a word and recognise words with the same initial sound. Children will mark make both indoors and outdoors and some children will begin to use some of their print and letter knowledge in their early writing. We will continue to share stories regularly with the children, further developing their understanding and enjoyment of books. All children will have daily phonics sessions, but some children will continue to be introduced to a sound per week through Read Write Inc.

Splish, Splash, Splosh!

Summer 1 Nursery 2025

Personal, Social and Emotional Development

Children will learn to play with one or more other children, extending and elaborating play ideas. They will begin to show more confidence in new social situations and talk with others to solve conflicts. Children will be increasingly independent in meeting their own care needs, e.g., brushing teeth, using the toilet, washing and drying their hands thoroughly.

Communication and Language

Children will be encouraged to use a wider range of vocabulary and will be given opportunities to express their point of view. They will be encouraged to start conversations with friends and adults, and use talk to organise themselves and their play.

Understanding of the World

Children will explore what water is and where it comes from. They will take part in first-hand exploration of water. Children will learn to explore and talk about different forces they can feel as they make their own boats and explore 'floating' and 'sinking'.

Expressive Arts and Design

Children will continue to be encouraged to explore materials and think about what they would like to make. They will develop their joining skills as they make boats and will consider which materials they should use. The children will continue to have weekly music lessons with Mrs Milner.

Additional Information

PE: Monday and Thursday (am)

Tapestry: Please continue to share home learning and experiences via Tapestry.

Changing library books: Thursday (or when your child is in)

Being prepared: Please ensure your child has a water bottle, a healthy snack and a sun hat/ sun cream. Please ensure everything is **named**.
